1. Product and Company Identification

Product name: Succinic anhydride
Synonyms: 2,5-Furandione, dihydro- (Cas Name)
CAS #: 108-30-5
Product code: -
Product use: Industrial use:
Industrial use as an intermediate in the production of substances and intermediates.
Industrial use as a monomer for the production of resins
Professional use:
Intermediate.
Laboratory chemicals.

Manufacturer/Supplier:
Supplier(Manufacturer): Polynt S.p.A.
Address: Via Enrico Fermi 51
24020 Scanzorosciate (BG)
ITALY
Contact person(E-mail): msds@polynt.com
Telephone: +39 035 652 111
Fax: -
Emergency telephone Number: +39 035 652 276 USA: Chemtrec 800-424-9300

2. Hazard(s) identification

GHS classification:
Physical hazards: Not classified
Health hazards: Acute toxicity-Oral Category 4
Serious eye damage/eye irritation Category 2A
Skin sensitization Category 1
Respiratory sensitization Category 1
specific target organ toxicity after single exposure Category 3

Environmental hazards: Not classified

GHS label elements:
Hazard Pictograms:
**Safety Data Sheet**

**Succinic anhydride**

**Issue date:** 07/14/2015  
**Version:** 1.0  
**Revision date:** 07/14/2015

**Signal word:** Danger

**Hazard statement:** Harmful if swallowed.  
Causes serious eye irritation.  
May cause an allergic skin reaction.  
May cause allergy or asthma symptoms or breathing difficulties if inhaled.  
May cause respiratory irritation.

**Precautionary statement:**

**Prevention:**  
Avoid breathing dust/fume/gas/mist/vapors/spray.  
Wash thoroughly after handling.  
Do not eat, drink or smoke when using this product.  
Use only outdoors or in a well-ventilated area.  
Wear eye protection/face protection.

**Response:**  
If swallowed: Call a poison center/doctor if you feel unwell.  
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
If inhaled: Remove person to fresh air and keep comfortable for breathing. Rinse mouth.  
If eye irritation persists: Get medical advice/attention. Call a poison center/doctor if you feel unwell.

**Storage:**  
Store in a well-ventilated place. Keep container tightly closed.  
Store locked up.

**Disposal:**  
Dispose of contents/container in corroding with local regulation.

**Other Hazards:** Dust explosion hazards (See Section 9).

### 4. First Aid Measures

**First aid procedures:**

**Eye contact:** In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Call a physician immediately.
Safety Data Sheet

Succinic anhydride

Issue date: 07/14/2015
Version 1.0
Revision date: 07/14/2015

Skin contact: After contact with skin, wash immediately with plenty of soap and water. Consult a physician.

Inhalation: Remove to fresh air. If breathing is irregular or stopped, administer artificial respiration.

Ingestion: Call a physician immediately. Clean mouth with water. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person.

Notes to physician: Treat symptoms.

5. Fire Fighting Measure

Flammable properties: Not flammable.

Extinguishing media:

Suitable extinguishing media: Foam, powder, water spray.

Unsuitable extinguishing media: Do not use water jets as they can disperse and spread fire.

Firefighting equipment/instructions: In the event of fire, wear self-contained breathing apparatus. Water mist may be used to cool closed containers. Use personal protective equipment to protect skin/eyes.

Hazardous combustion products: In combustion emits toxic fumes of carbon dioxide / carbon monoxide.

6. Accidental Release Measures

Personal precautions: Move any people not authorised to contain the emergency out of the area. Avoid coming in contact with the substance or handling containers without adequate protection. Use the personal protective equipment described in section 8. Use a respirator in the event of emissions/spillage of large quantities. Eliminate all sources of ignition. Remove all incompatible materials as outlined in section 10 of SDS. Avoid dust formation.

Environmental precautions: Contain the spillage as far as possible. Prevent spilled materials getting into the drainage system, wells, surface water or groundwater. In the case of leaks into a water course, drains, or if the product has contaminated the ground or vegetation, contact the local authorities.

Methods for cleaning up: Do not use equipment that can generate sources of ignition when cleaning. If possible, vacuum up the spilled material and/or absorb parts that can't be vacuumed up with inert materials (sand, earth, absorbent materials...) and place in suitable containers (separate liquids and solids) for disposal in accordance with section 13. After collection, ventilate and clean the affected area with water before granting access. Do not flush the water used for cleaning into watercourses or down drains.
7. Handling and Storage

Handling: Provide sufficient air exchange and/or exhaust in work rooms. Avoid contact with skin and eyes. Avoid accumulation of electrostatic charges, to prevent risk of powders exploding. Avoid formation of respirable particles. Avoid breathing dust. For precautions see section 2.2.

Storage: Eliminate all sources of combustion. Keep container hermetically closed in a dry and well ventilated environment. Do not store near heat sources or expose to direct sunlight, to preserve the quality of the product. Keep away from incompatible materials (see point 10.5). Keep away from food, feed and beverages.

8. Exposure Controls / Personal Protection

Control parameters:

OCCUPATIONAL EXPOSURE LIMITS (OEL):

Exposure controls:

Appropriate engineering controls: Use in a well-ventilated area.

Individual protection measures, such as personal protective equipment:

Eye / face protection: Goggles or protective visor.

Skin protection: The material the gloves are made of must be impermeable and stable when in contact with the substance. No specific information available on the suitability of the material and thickness of the gloves. Consult the glove manufacturer for specific information on the suitability of the gloves. Replace the gloves in the case of internal contamination, when punctured, or if external contamination cannot be removed. The actual duration of protection depends on the conditions of use. Wear protective clothing resistant to chemical substances.

Respiratory protection: Mask with P3 dust filter if solid or type A filter for vapours and organic gases with a boiling point > 65°C if molten (EN 149).
General hygiene Considerations: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing.

9. Physical & Chemical Properties

Appearance:
- Physical state: Solid
- Form: Solid flakes
- Color: White

Odor:
- Characteristics

Odor threshold:
- Not available

pH:
- Not available

Vapor pressure:
- 0.00000286 mm Hg (25 °C)

Melting point/Freezing point:
- 119 °C

initial boiling point and boiling range:
- 263.5 °C

Flash point:
- 163 °C

Evaporation rate:
- Not available

Flammability (solid, gas):
- Non flammable

Explosion limits:
- Not available

Vapor density:
- Not available

Solubility (water):
- Very soluble, 62.9 g/L, (20°C)

Partition coefficient octanol-water (Log Pow):
- log Pow= 2.44 (40 °C)

Auto-ignition temperature:
- Not available

Decomposition temperature:
- Not available

Specific gravity:
- Not available

Relative Density:
- 1.23 (20 °C)

Flammability limits in air, upper, %by volume:
- Not available

Flammability limits in air, lower, % by volume:
- 35 g/m3

VOC (Volatile Organic Compounds):
- Not available

Percent volatile:
- Not available

Explosive properties:
- Not explosive

Oxidising properties:
- Not oxidizing

Molecular Formula:
- C₄H₄O₃

Molecular Weight:
- 100.07

Other data:
Succinic anhydride

Issue date: 07/14/2015
Version 1.0
Revision date: 07/14/2015

Viscosity: Not available
Dissociation constant: pKa = 4.67 (20 °C)

Dust explosion hazard:

**Sample Characterisation:**
- Particle Size Distribution of sample (µm): <= 70
- Moisture content (%): 0.12

**Dust Explosion risk:**
- Minimum Ignition Energy (MIE), (mJ):
  - Without inductance (Electrostatic) (<25 µH): 10 - 15
  - With inductance (Mechanical) (1mH): 8 - 10
- Test Temperature (°C): 20

10. Chemical Stability & Reactivity Information

**Reactivity:** Stable under normal conditions.

**Chemical stability:** Material is stable under normal conditions.

**Conditions to avoid:** Incompatible materials. Avoid the build-up of electrostatic charges.
- Avoid exposure to heat sources.
- Avoid the formation of dust.

**Incompatible materials:** Strong acids, strong bases, oxidizing agents, amines.

**Hazardous decomposition products:** Toxic fumes of carbon dioxide / carbon monoxide.

**Possibility of hazardous reactions:** None known when used as directed.

11. Toxicological Information

**Toxicokinetics, metabolism and distribution:**

**Non-human toxicological data:** Not available

**Information on toxicological effects:**

**Acute toxicity:**
- LD50(Oral, Rat): 1794.9 mg/kg bw
- LD50(Dermal, Rat): > 2000 mg/kg bw
- LC50(Inhalation, Rat): Not available

**Skin corrosion/Irritation:** Not classified

**Serious eye damage/irritation:** Causes serious eye irritation.
Safety Data Sheet

Succinic anhydride

Issue date: 07/14/2015 Version 1.0 Revision date: 07/14/2015

Respiratory or skin sensitization:
  Respiratory sensitization: May cause allergy or asthma symptoms or breathing difficulties if inhaled.
  Skin sensitization: May cause an allergic skin reaction.

Germ cell mutagenicity: Not classified
Carcinogenicity: Not classified
Reproductive toxicity: Not classified

STOT- single exposure: May cause respiratory irritation.
STOT-repeated exposure: Not classified
Aspiration hazard: Not classified

12. Ecological Information

Persistence and degradability: Readily biodegradable.
Bioaccumulative potential: The substance has a Partition coefficient (log Pow) < 3 and therefore is not considered to be a bioaccumulative.
Mobility in soil: The product is soluble in water.
Results of PBT&vPvB assessment: Based on available information, the substance is not a PBT/vPvB.
Other adverse effects: No known significant effects or critical hazards.

13. Disposal Considerations

Disposal instructions: Dispose of contents/container in accordance with local/regional/national/international regulations.
Contaminated packaging: Since emptied containers may retain product residue, follow label warnings even after container is emptied.
14. Transport Information

DOT

Basic shipping requirements:
UN number: Not regulated
Proper shipping name: Not regulated
Hazard class: Not regulated
Packing group: Not regulated
Environmental hazards: No

IATA

UN number: Not regulated
UN proper shipping name: Not regulated
Transport hazard class(es): Not regulated
Packing group: Not regulated
Environmental hazards: No

IMDG

UN number: Not regulated
UN proper shipping name: Not regulated
Transport hazard class(es): Not regulated
Packing group: Not regulated
Environmental hazards: No

15. Regulatory Information

Safety, health and environmental regulations/legislation specific for the substance or mixture:

Succinic Anhydride (CAS 108-30-5):
is found on the following regulatory lists "US Toxic Substances Control Act (TSCA) - Chemical Substance Inventory" List.

16. Other Information

HMIS® ratings

Health: 3
Flammability: 1
Physical hazard: 0

NFPA ratings

Health: 3
Flammability: 1
Instability: 0
Safety Data Sheet

Succinic anhydride

Issue date: 07/14/2015  Version 1.0  Revision date: 07/14/2015

Material name: Succinic anhydride

Acronyms:

ACGIH: American Conference of Governmental Industrial Hygienist.
B: Bioaccumulable.
BCF: Bioconcentration Factor.
DOT: U.S. Department of Transportation
EC50: Effective Concentration 50 (that produces an effect (other than death) for 50% of organisms test).
EPA: Environmental Protection Agency.
GHS: Globally Harmonized System of Classification and Labeling of Chemicals
IATA: International Air Transport Association.
IBC: International code for the construction and equipment of ships carrying dangerous Bulk Chemicals.
ICAO: International Civil Air-transport Organisation.
IDLH: Immediately Dangerous to Life and Health
IMDG: International Maritime Dangerous Goods code.
Kow/Pow: n-octanol/water partition coefficient.
LC50: Lethal Concentration for 50% of animal test.
LD50: Lethal Dose for 50% test animal.
P: Persistent.
PBT: Persistent, Bioaccumulable and Toxic.
SDS: Safety Data Sheet.
STOT: Specific target organ toxicity
TEELs: Temporary Emergency Exposure Limits
TLV: Threshold Limit Value.
TLV-C: Threshold Limit Value - Ceiling.
TLV-STEAL: Threshold Limit Value - Short Term Exposure Limit.
TLV-TWA: Threshold Limit Value - Time Weighted Average.
vPvB: very Persistent and very Bioaccumulable.

Disclaimer: The information in the sheet was written based on the best knowledge and experience currently available.
